(she/her/hers)

47 S Williams St., Burlington, VT 05401 - (210) 846-1806 - [rafa@miguelsolis.com](mailto:rafa@miguelsolis.com)

---

## EDUCATION

**Keystone School** (San Antonio, Texas)

*Graduated May 2024*

Member of the National Honor Society, Duke Talent State Recognition, National Hispanic Recognition.

**Champlain College** (Burlington, Vermont)

*Expected Graduation May 2028*

Studying for a Bachelor of Science in Game Design.

## WORK AND EXPERIENCE

**Lone Star OB/GYN Associates, Assistant to MA's** (San Antonio, Texas) *May 2022-August 2022*

Worked to help the office's Medical Assistants. Made sure labs had been reported back, patients were scheduled for annual appointments, drug stock was within expiration dates, and appointment rooms were filled with necessary supplies.

**Bakery Lorraine, Food Handler (FOH/BOH)** (San Antonio, Texas)

*August 2022-May 2023*

Worked mainly in the kitchen of Bakery Lorraine at the Doseum to prepare and cook things in the back of house (BOH) as needed to be sold for the week ahead and day of. Worked in the front of house as well (FOH) to interact with customers, help them, and sell them food or beverages.

**Game Development and Design**

*March 2020-Present*

Growing a passion for coding, writing, producing the art for, designing, and assembling my own games, I use them to artistically express myself. I have made dozens over the last few years, each letting me learn more and more about the process and how I can best execute creating one. Doing this has allowed me to become comfortable in spanning a multi-media exploration in art both physical and digital (pixel art, oil painting, charcoal art, 3D modeling/design, texturing, etc.) to find the best methods in which to express my games.

**Healthy Futures of Texas, Film Finalist**

*March 2023*

I jointly wrote, acted, and filmed a three-minute short film off of the prompt 'What does birth control mean to you?' for the Healthy Futures of Texas competition, the prompt being in relation to bills across the country restricting the reproductive rights of women. Our film placed as a finalist, one of two in our school, and had the potential of winning the one-thousand dollar prize for the competition. Our film was titled *The Tangible and the Unknown*.

## SKILLS

Communication, Critical Thinking, Problem Solving, Direction/Management, C#/Java/Python, 3D Modeling, Physical Drafting, Attention to Detail, Organization, Active Listening, Collaboration, Audio and Film Equipment, Editing Software, Technical Support
