

Rafaela X. Solís (she/her)

Burlington, VT | rafa@miguelsolis.com | (210) 846-1806 | www.rafaelasolis.work

PROFESSIONAL SUMMARY

Dual-degree Game Design and Game Programming student with a track record of shipping designs across self-directed indie projects and an active collaborative studio. Experienced leading feature design from concept to prototype, building original game systems in Unity, and driving team workflow as a producer. Published on Itch.io with 162 downloads across 12+ original titles. Brings a rare blend of creative design instincts and the technical fluency to bring those designs to life.

EDUCATION

Champlain College

Bachelor of Science in Game Design; Bachelor of Science in Game Programming. Dean's List, All Current Semesters. GPA: 3.89.

Burlington, VT
Expected May 2028

Keystone School

High School Diploma. Secretary, National Honor Society (2023-2024); Duke Talent State Recognition Award; National Hispanic Recognition Program.

San Antonio, TX
May 2024

EXPERIENCE

Lead Designer and Engineer

October 2024 – Present

Vellum Games

- Design over 50 game features, collaborating with the team to balance creative concepts and scope them to implementable states
- Implement features within a structured Agile/Scrum workflow to deliver weekly playable prototypes in Unity 5 and Unity 6 using C# and Python
- Build custom workflow tools that streamline team processes and support the full Agile and Scrum pipeline
- Train multiple iterations of a CNN neural model using Python, Keras, and TensorFlow for in-game drawn image recognition

Producer

August 2024 – Present

Academic Projects

- Lead producer role across multiple academic game projects, facilitating Agile and Scrum ceremonies and keeping teams on schedule
- Author structured documentation to align team members and support cross-functional collaboration

Office Assistant

May 2022 – August 2022

Lone Star OB/GYN Associates

San Antonio, TX

- Executed daily office operations under the supervision of medical assistants in a clinical environment
- Entered and maintained patient data by logging lab results accurately into patient charts
- Audited and restocked medications, identifying and removing expired or depleted inventory

Food Handler (FOH/BOH)

August 2022 – May 2023

Bakery Lorraine

San Antonio, TX

- Prepared food and meals in a high-volume back-of-house kitchen environment
- Delivered front-of-house customer service, handling transactions and ensuring a positive guest experience
- Stepped into team lead responsibilities during peak hours to coordinate food prep and prevent stock shortages

PROJECTS

Indie Game Development <https://solunabeeboo.itch.io/>

March 2020 – Present

- Independently designed and developed over 12 original games, owning every stage from concept and systems design through build and release
- Created all original art assets, including hand-drawn sprites, 3D models, and textures for each project
- Published work on Itch.io, accumulating 411 views and 162 downloads across projects

Subnautica 2 Modding Contest (CurseForge) mod.curseforge.com/modding-contests/subnautica2

June 2026

- Placed 2nd internationally in an Unreal Engine modding competition, building an original mod using C++ and Lua; awarded \$650
- Reverse-engineered UE4SS to implement custom systems within Subnautica 2's modding framework
- Featured on CurseForge's main modding page banner for multiple weeks following the announcement

SKILLS

Design and Art: Game Feature Design, Pixel Art, 3D Modeling, Physical Drafting, Video Editing

Production and Workflow: Agile/Scrum, Production Documentation, Direction/Management, Collaboration

Programming and Tools: C#, Python, Java, Unity 5, Unity 6, Keras, TensorFlow, Neural Model Training (CNN)

Core Competencies: Problem-Solving, Organization, Critical Thinking
