Burlington, VT | rafa@miguelsolis.com | (210) 846-1806 | www.rafaelasolis.work | linkedin.com/in/rafaelasolis | solunabeeboo.itch.io

PROFESSIONAL SUMMARY

Game producer pursuing a Project Management minor alongside dual B.S. degrees in Game Design and Game Programming. Has run weekly Agile/Scrum sprints for 5+ game teams and serves as product owner at Pentad Games, building the studio's production toolchain from scratch. Hands-on C++, Lua, and C# experience in Unreal Engine 5 and Unity, including a 2nd-place international finish in the CurseForge Subnautica 2 Modding Contest, makes it possible to plan with every discipline in its own language.

EDUCATION

Champlain College | Burlington, VT | Expected May 2028

Bachelor of Science in Game Design; Bachelor of Science in Game Programming; Project Management Minor. GPA: 3.90. Dean's List, all semesters.

Relevant Coursework: Principles of Project Management, Catalyzing Positive Organizational Behavior, Game Studio I, Games Testing Lab, Applied Ludology, Introduction to the Game Industry, Game Architecture, Principles of Game Design

EXPERIENCE

Lead Developer (Product Owner, Lead Designer, Lead Programmer) | Pentad Games (formerly Vellum Games) | October 2024 - Present

- Direct a 5-7 person team (up to 10) as product owner on Open Shift, a co-op cozy-horror storekeeping game entering beta, managing the backlog, priorities, and community and teaser launch planning
- Scoped 50+ gameplay features across Open Shift, Scriptorium, and Mega Market Mayhem from concept to implementable work, delivering weekly playable builds under Agile/Scrum

- Designed and built the studio's production suite on a self-hosted AFFiNE instance, with kanban tools tracking story points, assignees, and completion plus automated email reminders
- Built an art hub with automated page generation, centralized asset storage, and critique workflows that prompt teammates for feedback
- Introduced local AI meeting transcription and notes, and a GitHub integration where members browse changes and download nightly builds produced by GitHub Actions
- Earlier, built a Discord bot integrated with Taiga that posted weekly sprint breakdowns and task reminders

Project Manager | Leahy Center for Digital Forensics & Cybersecurity, Champlain College
| Burlington, VT | Fall 2026 – Present

- Restructure documentation, workflows, and meeting processes across the organization's teams while keeping each team in a familiar working environment
- Audit existing team processes and introduce improvements with minimal disruption to day-to-day work

Producer | Champlain College Academic Game Projects | August 2024 – Present

- Produced 5+ multidisciplinary game teams on weekly sprints for projects running from one month to multiple years
- Facilitate sprint planning, stand-ups, reviews, and retrospectives; balance workload so each member contributes where they are strongest
- On The Owl Keeper (educational game), cut full voice-acted dialogue to meet the deadline and redirected the sound designer to voice key story moments, preserving narrative impact
- Author production documentation, schedules, and system diagrams that keep art, design, programming, and audio aligned

Food Handler (FOH/BOH) | Bakery Lorraine | San Antonio, TX | August 2022 – May 2023

- Stepped into team lead during peak hours in a high-volume kitchen, coordinating prep and preventing stock shortages

PROJECTS

Subnautica 2 Modding Contest: 2nd Place Internationally | CurseForge | June 2026

- Planned, built, and shipped Easy Third Person (C++, Lua, Unreal Engine 5) on a contest deadline, winning 2nd place internationally and \$650
- Released Easy Third Person and The Gold Mod with 6,000+ combined downloads; featured on CurseForge's main page banner for multiple weeks

Indie Game Development | solunabeeboo.itch.io | March 2020 – Present

- Took 12+ original games from concept through release solo, managing scope, schedule, art, and build

SKILLS
